

REPO | SYSTEMS

Facts & Information

For Recovery Agents

“Gotcha!”

REPO | SYSTEMS

Facts & Information

Our philosophy is extremely simple:

We provide you the tools to be successful in your collateral recovery business.

Who is RepoSystems?

RepoSystems is a management and communications tool for the collateral recovery industry. "Lending Institutions" and "Recovery Agents" can communicate in real-time to enhance productivity, efficiency and accuracy in the recovery of the collateral. Our system provides an end-to-end collateral recovery solution that automates the repossession process from assignment and recovery, to disposition.

RepoSystems key benefits include:

- Overhead substantially reduced
- Redundant data entry eliminated
- File processing costs reduced
- Telephone time greatly reduced
- Processing capacity increased
- Assignments quickly processed and dispatched
- Efficiency gains direct to bottom line

We don't believe your lift or repo truck vendor should be dictating what YOU should receive for "picking up" a unit, NEITHER should your camera provider!

We aren't a middleman to take a piece of your income, or an organization to tell you what to charge your clients.

What does RepoSystems provide?

We provide the hardware and software for successful LPR scanning and historical license plate searches.

As a subscriber of RepoSystems you manage your business, enter your assignments and accept assignments from the entire RepoSystems Community.

We provide an optional, Geographic License Agreement (GLA) to protect your territory from being overrun with RepoSystems LPR cameras (call for details).

2 Camera LPR System!

*Shown is a 2 camera system, also available in 3 and 4 cameras.

If you receive a positive “hit” on a tag or license plate you will be provided one of three (3) messages:

1. “Your Repossession Order” means your assigned account and pick up immediately upon verification with RepoSystems.Com database
2. “3rd Party Assignment” means the unit is assigned to another Repossession Agency, please contact them to negotiate pickup or a finders fee assigned repossession agency information will be provided to you immediately onscreen]
3. “Lender Repossession” indicates lender repossession “queue”
 - a) If lender has arranged for auto assignment, unit will be auto assigned to you, just follow the on screen directions and pick up the unit.
 - b) If lender needs manual approval, lender contact information will be provided to you immediately onscreen. You will then need to contact them to negotiate the repossession arrangements.

Included in your purchase:

- ToolBox
- Computer
- Cameras
- Software
- GPS Antennae
- Magnetic Mounts
- All Necessary Cables & Power Cords

• Depends on Choice made or model sent at RepoSystems discretion. Items shown may differ from what is shipped or fulfilled.

Need Tag or License Plate Information from your VIN?

Introducing VIN2PLATE Service

ANY License Plate Recognition system needs License Plate data. We have the ability to provide you with the data, internally from RepoSystems. Just click on the “Request License Plate” checkbox while entering the repossession order or editing the vehicle information section and you will be provided the data on a regularly scheduled basis.

This service is optional and not required. However, the ability for you to locate your repossession by LPR is IMPOSSIBLE without a License Plate!

For each request you make, you will be charged 50¢ (\$0.50) deducted from your RepoSystems Wallet.

If we do not get a positive result on the License Plate search, your RepoSystems Wallet will be refunded the amount automatically.

Do you have a Different LPR System?

If you have an LPR system other than the RepoSystems Digital LPR 2.0 but aren't using it, we may be able to help you utilize portions of it, to reduce your costs on the purchase of our LPR system. Call for details.

In addition, if you have made the investment in another and need to be able to export your open repossession orders to a format that works on your system, we can accommodate you.

Run BOTH Systems and get the advantages of all available.

For more information on our LPR camera services please call our LPR sales department at 972.501.0375 x 1007 or email us at

LPRsales@reposystems.com
